

# Vintage Display Stand

By Michaela Stange

To make this Display Stand you will need: Jewellery Glue, vintage white acryl paint

Glue one small round bezel cups no. 3 on the largest no. 1. Then glue the other no. 3 under no.2  
Let them dry. Then glue the long bead no. 4 into the small bezel cups. First glue it on the large bezel cup, and then under the smaller one. Let it all dry. Then glue both findings no 5 on the smaller bezel cup no. 2. Let dry. Then glue the sing no 6 on the findings. When dry you can paint your diplay stand with the vintage white acryl paint. Then cut out the printed sign and glue it onto no.6  
Now just cut out the bottles labels, glue them on the bottles. Also glue the beads on the bottles as caps.

Have Fun!
